## Automatic V-Cutting Saw

- Two 45° angled saw blades with 200 mm diameter, V-cuts PVC profiles for V-welding.
- The cutting depth can be set easily.
- The adjustable saw blade feed enable fast and precise cutting with rapid return.
- Horizontal pneumatic clamps are positioned opposite of the movement direction to ensure optimum profile fixing.

### Technical Features

- Power Supply: 400 V, 3~50-60 Hz
- Total Power Output: 1,5 kW
- Power Output of Each Motor: 0,75 kW x 2
- Air Pressure: 6-8 bar
- Air Consumption: 60 l/min.
- Max. Profile Height: 50 mm
- Machine Height: 1200 mm
- Machine Length: 500 mm
- Machine Width: 1200 mm
- Machine Weight: 190 kg
