

DV-410

Automatic Reinforcement Profile Screwing Machine with Triple Drilling

- Screwing and Triple handle drilling operations on PVC profiles are gathered in one machine controlled by computer.
- Loading of 10 profiles. (Max. 5000 mm length)
- Able to screw and triple drill operations due to servo system.
- Two screwdriving units, one fixed and the other movable simultaneously.
- Automatic profile off-loading station.
- Adjustable screwing positions according to different profile cross sections.
- Automatic screw feed.
- Automatic screwing depth stop system independent from profile height.
- Pneumatic profile fixing system during the Process.

OPTIONAL

- Frame installation hole unite.

Technical Features

- Power Supply: 400 V, 3~50-60 Hz
- Total Power Output: 5 kW, 13 A
- Air Pressure: 6-8 bar
- Air Consumption: 550 l/min.
- Max. Profile Length: 3000 mm
- Max. Profile Width: 180 mm
- Max. Profile Height: 135 mm
- Min. Profile Height: 35 mm
- Machine Height: 2300 mm
- Machine Length: 9219 mm
- Machine Width: 3016 mm
- Machine Weight: 1500 kg
